EXPERIENCE

SENIOR FULLSTACK DEVELOPER / SOFTTEK

April 2008 – current

Working with customers and teams around the world like GE and Maritz.

Project Leader 2 years on GE Project working with Scrum framework and agile methodologies.

Working on Web Apps with technologies like HTML5, CSS3, JavaScript (AngularJS, Angular 2+, ReactJS, NodeJS, Backbone, jQuery, Polymer), ASP, PHP, and more.

PIXELANIA.COM / PIXELANIA

Jan 2010 – current

This is my own project, a website that provides information to videogame lovers around the world.

This live site is created with Joomla as CMS, PHP as backend, HTML5, JavaScript (Backbone, jQuery) as frontend.

I have implemented a lot of improvements to the performance, created a lot of tools for doing quickly several Joomla and Pixelania processes.

I have created a Mobile App with HTML5, JavaScript (Ionic, Angular), and PHP.

The App is available for everyone on App Store and Google Play.

App Store

<https://apps.apple.com/mx/app/pixelania/id1497477923>

Android

<https://play.google.com/store/apps/details?id=com.pixelania.application>

jQuery, MySQL, SQL Server,
Oracle DB, Unix, Linux.
